

## KBC Sports Workshops held in Chhattisgarh & Gujarat

The Freedom to Play (F2P), Gender Through Sports (GTS) and Sports Leadership workshops, part of Kadam Badhate Chalo (KBC) 2.0, in partnership with MFF (Martha Farrell Foundation) and PRIA (Participatory Research in Asia), were delivered to youth in Raipur, Chhattisgarh and Bhachau, Gujarat in December 2017.

The first Sports Leadership workshop of KBC 2.0 was delivered to 49 youth (65% girls) in Raipur, Chhattisgarh from 4<sup>th</sup> to 6<sup>th</sup> December. In Bhachau, Gujarat three F2P camps were delivered to a total of 153 youth (35% girls) and the GTS workshop was delivered to 27 youth (48% girls), who were selected from the F2P camps, between 19<sup>th</sup> to 25<sup>th</sup> December.

The Sports Leadership workshop was successful in imparting useful skills to the youth in Raipur, with 16-year old Muskan Kol of the opinion, "We learnt a lot from coaches, and we became leaders and taught others. That feeling after we became leaders was great, I liked it."

The workshops in Bhachau, Gujarat brought most of the girls and boys together in any activity for the very first time, as the highly conservative society of the Kutch region sees more than half of girls drop out of schools after their primary education!

## Sports Infrastructure Installed in Community Schools in BBSR

As part of the Community Sports Program, supported by Tata Trusts, sports infrastructure for Volleyball, Football and Netball was installed in the playgrounds of all participating centres.

This will ensure that the sports-based games part of the curriculum can be easily implemented by PSD's coaches. Furthermore, the multi-sport infrastructure will ensure sustainability in the participating centres' children to continue being physically active.

## Impact of Community Program captured via Case Studies

Case studies, via participatory methods, are being utilized to capture the impact of the Community Sports Program on the participating schools and children.

**Subhasree Swain**, a 13-year old from Satya Sai School in Dum Duma slum, relates that before the program began, she would not even touch any of the boys in her class. "But now that we have been playing in mixed groups, my thinking has changed and now I am much more comfortable around boys."
